

Santa's Magic Key

Many years ago, Santa's elves discovered a way to help children who didn't have a chimney. They created The Magical Paper Key light as a snowflake, yet filled with Christmas wonder.

All you need to do is cut out your key carefully, place it by your front door on Christmas Eve, and whisper:

"Santa, this key is made for you,
Please make its magic sparkle through.
Touch it once and you will see,
It turns real just for me!"

When Santa arrives, his Christmas magic flows
his fingertips.

The paper key glows bright and turns into
shimmering key just long enough for him
door and quietly tiptoe inside.

Then, as he lets go, the key goes
paper leaving behind a sprinkle
show he was really there.
